

Landscape Irrigation Retrofit

Changing from a high flow to low flow irrigation system.

Landscape Irrigation Retrofit

- High Efficiency Lower flow systems must have pressure regulation to be effective!
- In line filters are also key to system performance!

Landscape Irrigation Retrofit

- Replacing high flow rotors and sprays
 - High Efficiency nozzles
 - Rotating Nozzles

Properly pressure regulated

High Pressure Misting

Landscape Irrigation Retrofit

- Replacing high flow rotors and sprays
 - High Efficiency sprinklers
 - High Efficiency sprays

High Pressure

Properly pressure regulated

Landscape Irrigation Retrofit

- Low flow micro irrigation
 - Drip

Landscape Irrigation Retrofit

- Low flow micro irrigation
 - Micro-spray
